

# PERCEPTIONS OF REGISTERED SOUTH AFRICAN VOTERS ON AN ANC/DA COALITION

This report explores the perceptions of registered South African voters on a potential ANC/DA coalition after South Africa’s 2024 elections.

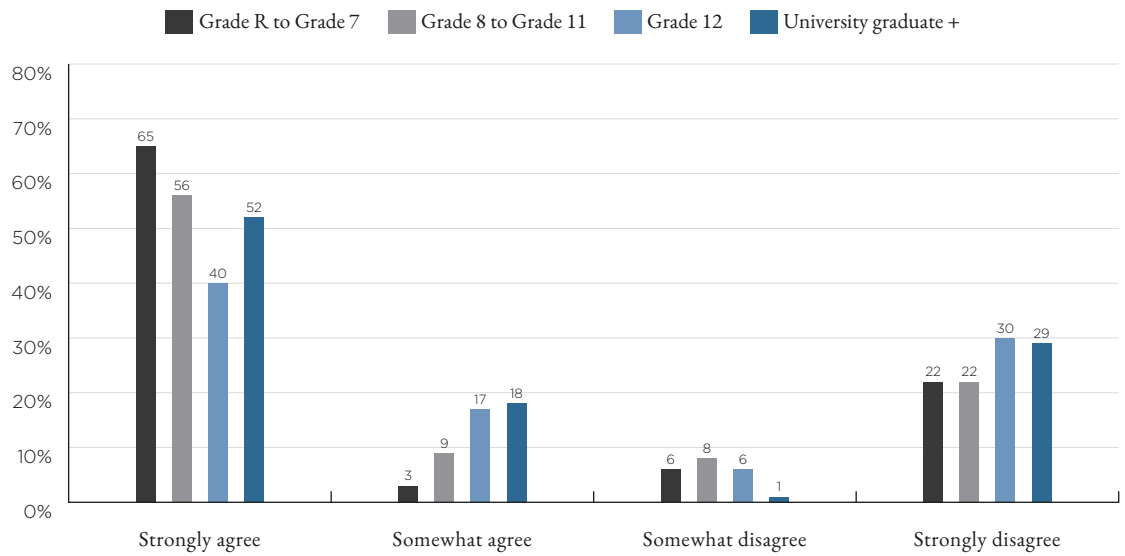

The data is based on a survey of 1 412 geographically and demographically representative registered voters commissioned by the Foundation in October 2023. That survey had a national margin of error of 5%. Totals may not add up to 100% where rounding has occurred or where participants refused to answer a question.
